## RUSSIAN METEOROLOGY AND HYDROLOGY

|  | PAGES   |         |
|--|---------|---------|
|  | ENGLISH | RUSSIAN |
| <i>V. A. Lobanov, E. L. Zhiltsova, N. A. Lemeshko,<br/>S. A. Gorlova, and S. A. Reneva</i>   |         |         |
| Restoration of Long-Term Time Series of Air Temperature<br>in European Russia  | 1       | 5       |
| <i>V. I. Ponomarev, D. D. Kaplunenko,<br/>and V. V. Krokhin</i>  |         |         |
| Climate Change Tendencies in the Second Half of the Twentieth<br>Century in Northeast Asia, Alaska, and Northwest Pacific            | 10      | 15      |
| <i>N. P. Shakina, E. N. Skriptunova, and A. R. Ivanova</i>   |         |         |
| Conditions for Freezing Precipitation at Russian and GIS<br>Airports. II. The Airport of Mineralnye Vody                             | 19      | 27      |
| <i>S. M. Shmeter and G. P. Beryulev</i>  |         |         |
| Efficiency of Cloud and Precipitation Modification with<br>Hygroscopic Aerosols  | 33      | 43      |
| <i>M. S. Permyakov, N. P. Malikova, E. Yu. Potalova,<br/>and T. I. Tarkhova</i>  |         |         |
| Relation of Thermodynamic Parameters of the Atmosphere<br>with Cyclogenesis in the Tropical Northwestern Pacific Ocean               | 47      | 61      |
| <i>A. E. Pokhil and M. Yu. Zaichenko</i>   |         |         |
| Study of the Influence of the Structure of an Initialized<br>Vortex on the Forecast of Tropical Cyclone Motion<br>with the ETA Model | 53      | 68      |
| <i>A. S. Zapevalov</i>   |         |         |
| Seasonal Variability of Vertical Temperature and Salinity<br>Distribution in the Sea of Marmora                                      | 61      | 78      |
| <i>A. I. Burkov and O. I. Vozzhennikov</i>   |         |         |
| Modeling Volatilization of Hazardous Chemicals from Spill<br>onto the Underlying Surface   | 67      | 85      |
| COMMUNICATIONS   |         |         |
| <i>A. Kh. Degterev</i>   |         |         |
| Modulation of Geothermal Flux by Pleistocene Climate<br>Changes (as Applied to the Black Sea)  | 76      | 95      |
| REVIEWS AND<br>CONSULTATIONS   |         |         |
| <i>A. A. Chernikov, A. M. Zvyagintsev, N. S. Ivanova,<br/>G. M. Kruchenitskii, I. N. Kuznetsova, and V. I. Demin</i>                 |         |         |
| Ozone Content over Russian Federation Territory in 2004  | 79      | 112     |
