NUMBER 11

2005

RUSSIAN METEOROLOGY AND HYDROLOGY

	PAGES	
	ENGLISH	RUSSIAN
<i>E. M. Volodin</i>		
Response of Tropical Atmospheric Circulation in July-August to Two El Nino Types	1	5
<i>E. V. Dmitriev and A. I. Chavro</i>		
Studying the Possibility of Paleoclimate Reconstruction with Mathematical Statistics Methods	6	11
<i>Kh. M. Zhakamikhov and A. M. Abshaev</i>		
Numerical Simulation of Microradiowave Dispersion by Spectra of Homogeneous and Two-Layer Precipitation Particles	18	26
<i>M. L. Gitarskii</i>		
Influence of Industrial Emissions on the Absorption of Atmospheric Carbon Dioxide by Forests	24	33
<i>P. P. Belevich and A. V. Sribenko</i>		
Secular Regime of Precipitation in Odessa	29	39
<i>P. N. Golovin</i>		
Formation and Sink of Dense Shelf Waters in the Area of the Continental Slope (Cascading) of the Nansen Basin in the Laptev Sea	33	44
<i>A. V. Babkin</i>		
An Improved Model of the Assessment of Periodic Changes in Caspian Sea Level and Water Balance Components	48	63
<i>M. V. Bolgov</i>		
Markov Processes in the Problem of Prediction of the Level of a Closed Basin	57	74
<i>I. V. Nedogarko, Yu. N. Kuznetsova, and F. Yu. Reshetnikov</i>		
Lake Bottom Sediments as an Indicator of Dynamic Factors	67	86
<i>A. M. Zvyagintsev, N. S. Ivanova, G. B. Kakadzhanova, G. M. Kruchenitskii, I. N. Kuznetsova, and T. S. Selegei</i>		
REVIEWS AND CONSULTATIONS		
Ozone Content over the Territory of the Russian Federation in the Third Quarter of 2005	74	118
