2005

RUSSIAN METEOROLOGY AND HYDROLOGY

	PAGES	
	ENGLISH/RUSSIAN	
<i>I. V. Trosnikov, V. D. Kaznacheeva, D. B. Kiktev, and M. A. Tolstykh</i>		
Assessment of the Potential Predictability of Meteorological Variables for Seasonal Dynamical Modeling of Atmospheric Circulation by SL-AV Model	1	5
<i>M. S. Permyakov and E. Yu. Potalova</i>		
Conditions of Formation of Tropical Cyclones in Geostrophic Flow	10	18
<i>V. I. Vasil'ev</i>		
Study of Total Ozone Variability in an Impact Zone of a Tropical Cyclone	18	28
<i>A. V. Kislov</i>		
Climatology of Vorticity and Cyclogenesis in the Tropical Atmosphere of the Northern Hemisphere	27	40
<i>A. E. Pokhil</i>		
Vortices in the Eye of Hurricane Isabel	33	47
<i>A. A. Postnov, V. B. Lapshin, and N. V. Zhokhova</i>		
Long-Term Variability of pH in the 500-m Layer of the North and Central Atlantic	39	55
<i>V. I. Naidenov and V. I. Shveikina</i>		
Hydrological Theory of Global Warming of the Earth's Climate	46	63
<i>L. S. Kuchment and A. N. Gelfan</i>		
Estimation of Parameters of Physically Based Models of Runoff Generation under Insufficiency of Hydrological Observations	57	77
<i>B. M. Ginzburg</i>		
River Freeze-up and Breakup Dates in the Late 20th Century and Their Possible Changes in the 21st Century	65	88
<i>R. A. Poluektov and V. V. Terleev</i>		
Modeling the Moisture Retention Capacity of Soil with Agricultural and Hydrological Characteristics	73	98
INDEX	78	119
