## RUSSIAN METEOROLOGY AND HYDROLOGY

|  | PAGES   |         |
|--|---------|---------|
|  | ENGLISH | RUSSIAN |
| <i>I. M. Shkolnik, V. P. Meleshko,<br/>and V. M. Kattsov</i>   |         |         |
| Possible Climate Changes in European Russia and Neighboring Countries by the Late 21 st Century: Calculation with the MGO Regional Model | 1       | 5       |
| <i>E. K. Semenov, E. V. Sokolikhina,<br/>and N. N. Sokolikhina</i>   |         |         |
| Synoptic Aspects of Formation of the Equatorial Westerly Winds over the Pacific Ocean during the Extreme El Niiio Event of 1997-1998     | 11      | 17      |
| <i>G. V. Surkova, V. S. Arkhipkin,<br/>and S. S. Mukhametov</i>  |         |         |
| Mesoscale Meteorological Processes in the Black Sea Coastal Region in Summer   | 22      | 31      |
| <i>N. A. Begalishvili, N. I. Beradze, B. Sh. Beritashvili,<br/>G. I. Kordzakhia, G. L. Lazriev, and T. I. Turmanidze</i>                 |         |         |
| Problem of Climate Change in Mountainous Countries: A Case Study for Georgia   | 33      | 46      |
| <i>M. P. Tentyukov</i>   |         |         |
| Formation of the Aerosols over Yamal in a Polluted Atmosphere  | 40      | 55      |
| <i>G. V. Shevchenko and V. N. Chastikov</i>  |         |         |
| Seasonal and Interannual Variations of Oceanographic Conditions in the Southern Tatar Strait   | 49      | 65      |
| <i>A. N. Chetyrbotskii</i>   |         |         |
| Evolution of the Fast Ice Thickness in Freezing Seas   | 60      | 79      |
| <i>M. V. Bolgov and I. A. Filippova</i>  |         |         |
| Threshold Stochastic Models of Low Flow  | 67      | 88      |
| <i>L. M. Kitaev, V. N. Razuvaev, R. Heino,<br/>and E. Forland</i>  |         |         |
| Snow Cover Period in Northern Europe   | 72      | 95      |
