## JOURNAL OF MACHINERY MANUFACTURE AND RELIABILITY

	Pages	
	Russian/English	
Operational precision and reliability of analog devices		
V. I. Sergeev . . . . .	3	1
Spectral identification of nonsteady oscillation modes in models with chaotic dynamics		
V. G. Kukhareno . . . . .	9	6
Thrust pulsation and vibration in liquid-fuel rocket motors		
L. Ya. Banakh, S. N. Zhrebchikov, and M. A. Rudis . . . . .	17	13
Optimal-regulator synthesis for an active vibroprotection system with an electrohydraulic executive drive		
L. A. Rybak, A. V. Chichvarin, and M. A. Kolesnikov . . . . .	26	21
Improving the range and precision in determining the angular position of turbine blades		
V. V. Shegolev and V. A. Mednikov . . . . .	33	28
Residual stress in electric-arc welding of pipe		
G. Ya. Panovko, O. S. Naraikin, A. M. Pokrovskii, and O. A. Volokhovskaya . . . . .	39	33
Inseparable thermomechanical cable junction		
S. V. Shishkin . . . . .	46	39
Predicting the bearing life in drilling-machine pivots		
V. I. Kucheryavyi and S. N. Mil'kov . . . . .	51	45
Frictional role of the structure of metal–fluoroplastic material in the presence of liquid lubricants		
A. P. Semenov . . . . .	56	50
Influence of lubricants with added frictional geomodifiers on joint performance		
L. I. Pogodaev, V. M. Petrov, and A. Yu. Shabanov . . . . .	60	53
Obtaining similar gear-tooth surfaces when using different machining parameters		
V. I. Medvedev . . . . .	67	58
Designing a tool of limited life		
A. V. Kornilova . . . . .	76	66
Magnetic-noise monitoring of ferromagnetic parts		
A. S. Reshenkin . . . . .	82	72
Trajectory control of automatic manipulators		
P. D. Krut'ko and M. A. Golovanov . . . . .	88	77
Ensuring the reliability of mechanical systems by means of control interventions		
V. M. Trukhanov . . . . .	96	85
Force characteristics of axisymmetric elastic hinges		
B. A. Shcheglov . . . . .	101	89
Dynamic processes in residential and industrial buildings during airplane crashes		
I. B. Petrov . . . . .	107	95
Thirty-second international summer school of mechanical scientists: analysis and synthesis of nonlinear mechanical oscillatory systems		
V. A. Dubrovskii and N. I. Podvolotskaya . . . . .	111	99
