## RUSSIAN JOURNAL OF NON-FERROUS METALS

PAGES  
RUSSIAN/ENGLISH

### Metallurgy of Non-Ferrous Metals

A study of the structure of a reducing agent and its reactivity in carbothermic production of high-purity silicon. N. V. Nemchinova.....	4	1
Vapor-phase oxidation of arsenic-containing concentrates. V. A. Vostrikov and N. M. Vostrikova.....	9	7

### Metallurgy of Less-Common and Precious Metals

Extraction of rhenium from cinders generating in oxidizing roasting of molybdenite concentrates. F. Sh. Balgaeva and A. S. Medvedev.....	28	11
Low-temperature autoclave technology of break-down of difficult-to-work gold in sulfide concentrates. G. G. Mineev and I. A. Zhuchkov.....	30	14

### Metal Forming

Mathematical simulation of forming and evolution of grain structure of metal in shaping. A. A. Boganov and I. V. Levin.....	34	19
---	----	----

### Powder Materials and Coatings

Erosion resistance of contact materials in silver-graphite system possessing anisotropic structure. A. V. Boiko.....	59	35
--	----	----

### Structural Macrokinetics. SHS

Production of composite targets in the system Ti-B-Si-Al by self-propagating high-temperature synthesis. E. A. Levashov, B. R. Senatulin, A. Leyland, and A. Matthews.....	66	39
--	----	----
