STEEL IN TRANSLATION

PAGE

Iron Production

Mechanism of drop growth during the reduction of iron oxides by solid carbon in slag melt. V. G. Guglya and S. A. Podolin	1
The prospects for small blast furnaces. Yu. S. Yusfin, P. I. Chernousov, and O. V. Golubev	12

Metallurgy of Steel and Ferroalloys

Initial stage of steel crystallization. M. Ya. Brovman	19
Desulfurization kinetics of hot metal in Azovstal casting ladles. A. M. Zborshchik	24
Reconstruction of the Severstal Electromelting Shop. A. V. Ziborov, E. V. Maslov, A. A. Petrov, and B. Ya. Baldaev	29

Pressure Treatment of Metals

Production of precision pipe from hard-to-deform corrosion-resistant steel and alloys. N. L. Lisunets, A. P. Kolikov, V. V. Danilov, A. A. Kachalin, and A. D. Zatykin	33
Improving the dimensional precision and surface quality of cold-rolled pipe. D. E. Kuznetsov	37
Development of forging innovations at Moscow Institute of Steel and Alloys. V. A. Tyurin	43
Furnaces with step-by-step fuel consumption in metallurgy. L. A. Shul'ts	47

Structure and Properties of Metals and Alloys

Improving the antifracking heat treatment of large forgings. D. A. Mirzaev, N. I. Vorob'ev, O. K. Tokovoi, D. V. Shaburov, and E. A. Fominykh	56
Producing extremely thin amorphous strip. B. A. Kornienkov, V. P. Ovcharov, and M. Yu. Yazvitskii	60
Steel alloyed with nitrogen. A. G. Svyazhin and L. M. Kaputkina	64
Influence of low-temperature preliminary annealing on the recrystallization structure and texture of Kh30K15M3 alloy. R. I. Malinina, O. A. Ushakova, D. G. Zhukov, V. S. Shubakov, and E. N. Petrikova	77
