VOLUME 35

NUMBER 5

2005

STEEL IN TRANSLATION

PAGE

Iron Production

- Sintering with oil-coke fines. N. P. Sysoev, V. L. Terent'ev,
M. F. Gibadulin, V. P. Lekin, and R. B. Yusupov 1
- Spatial nonuniformity of silicon reduction and the development of critical
phenomena in the blast-furnace hearth. G. Yu. Kryachko..... 4

Theory of Metallurgical Processes

- Numerical methods of integrating the Gibbs-Duhem equation. V. I. Berdnikov,
Yu. A. Gudim, and M. I. Karteleva..... 9

Metallurgy of Steel and Ferroalloys

- Nitriding low-carbon corrosion-resistant steel on a VOD unit. G. I. Morozov,
V. V. Rozhentsev, D. E. Kushnerev, and A. S. Shvaley 15
- Direct alloying of steel. R. S. Takhautdinov, A. Ya. Nakonechnyi,
V. N. Urtsev, and D. M. Khabibulin 18
- Simulation of power consumption at arc smelting furnace. S. A. Khor'kov
and S. A. Knyzhov 22
- Requirements on the automation of mini-mill casting and rolling systems.
M. D. Zharnitskii 25
- Industrial safety in the production of ferroalloy powder. A. I. Belkin..... 27
- Effectiveness of carbon-monoxide burnup in converter. G. A. Karpenko,
E. E. Merker, and A. A. Kozhukhov 34
- Internal surface temperature of rollers in continuous-casting machines.
N. V. Telin and N. I. Shestakov 38

Pressure Treatment of Metals

- Quality control systems at Magnitogorskii Metallurgicheskii Kombinat Joint
Stock Company. A. A. Morozov, F. V. Kapsan, V. N. Urtsev,
K. A. Lisichkina, V. L. Kornilov, and V. V. Kurban 42

(continued)

- Optimal heating of ShKh15SG steel billet prior to rolling. A. B. Steblov,
V. I. Timoshpol'skii, D. V. Lenartovich, V. A. Tishchenko,
S. M. Kabishov, and I. V. Kotov 44
- Influence of carbide-forming elements on the operational properties of rolls.
V. V. Salomykin, E. V. Saprykin, M. N. Shchelkov, E. M. Fedorenko,
and A. N. Drobyshev 49
- Development of production at plants operated by Trubnaya Metallurgicheskaya
Kompaniya Joint Stock Company. L. G. Marchenko, A. A. Klachkov,
and V. I. Stolyarov 53

Wear- and corrosion-resistant phosphate coatings in threaded oil-pipe joints. R. Yu. Aleshin	57
Influence of rolling on the properties of titanium—steel composite obtained by explosive welding. Yu. P. Trykov, V. G. Shmorgun, and S. A. Abramenko	61

Structure and Properties of Metals and Alloys

Magnetic-noise measurements of the decarburized-layer depth. F. M. Kismatov, G. V. Lomaev, M. I. Makhnev, and S. A. Zinchenko	63
Carbide cast iron for wear-resistant machine parts. Yu. G. Gurevich and L. M. Savinykh	67
Structure of Kh18N10AT steel and nitrogen distribution between phases after crystallization. A. G. Svyazhin, E. S. Shaidurova, E. Sivka, L. M. Kaputkina, and V. G. Prokoshkina.....	71

Economics

Strategic alliance between fundamental science and metallurgical enterprises as the basis for innovation. V. F. Rashnikov, A. A. Morozov, V. N. Urtsev, and Yu. N. Gornostyrev	75
Intellectual property aspects of technological security and economic efficiency. G. S. Senichev, Yu. A. Bodyaev, E. V. Karpov, V. N. Urtsev, and D. M. Khabibulin	78

Automated Systems and Information Science

Development of energy equivalents for metallurgical systems. I. O. Leushin and A. S. Ermilin	81
---	----
