STEEL IN TRANSLATION

PAGE

Iron Production

Evaluating coke quality. Yu. P. Petrenko, V. V. Belov, V. V. Temnikov, and A. M. Ivanov	1
Simulation of gas-dynamic and slag conditions in blast furnace. O. P. Onorin, N. A. Spirin, and V. V. Lavrov	3
Reconstruction of blast furnace 5 at Nizhnetagil'skii Metallurgicheskii Kombinat Joint Stock Company. V. V. Semchin, S. V. Filatov, and V. A. Khodonetskikh	7
Producing combined pellets by means of high-temperature compressed air jets. V. M. Pavlovets	12
Coke combustion in blast-furnace hearths. V. P. Gorbachev, V. A. Dolinskii, and L. D. Nikitin.....	19

Metallurgy of Steel and Ferroalloys

Converter smelting of high- and moderate-carbon steel with interruption of oxygen injection at specified carbon content. S. A. Spirin, V. A. Ravnushkin, E. V. Shekhovtsov, N. V. Mukhranov, and S. A. Remigo...	23
Influence of the fractional composition of silicocalcium on calcium assimilation from powder wire. V. A. Ravnushkin, V. V. Kromm, Yu. P. Petrenko, and L. V. Matveecheva.....	27
Stabilization of disintegrating refined-ferrochrome slags. A. A. Grabeklis, B. L. Demin, and A. B. Esenzhulov	30
Electroslag hardening of metallurgical components by means of composites. V. A. Bystrov, V. I. Verevkin, and I. F. Selyanin.....	35
Using gas-thermal coatings to reduce the working surface of narrow mold walls. A. G. Radyuk, A. E. Titlyanov, and A. S. Gritsan	40

Pressure Treatment of Metals

Production of round rolled parts from ShKh15 and ShKh15SG steel. Yu. P. Petrenko, E. V. Shekhovtsov, V. F. Myunkh, K. N. Shvedov, and A. A. Skorokhodov	44
Extending the life of horizontal cast-iron rolls in a 450 bar mill. A. B. Yur'ev, O. Yu. Efimov, V. Ya. Chinokalov, V. V. Salomykin, and V. P. Simakov	46
Selecting furnace configurations. M. A. Denisov and G. A. Mikhalev	49

Structure and Properties of Metals and Alloys

Expanding the production of vanadium steel in Russia. L. A. Smirnov, L. M. Panfilova, and B. Z. Belen'kii	53
Vanadium and niobium in microalloyed steel for metal structures. P. D. Odesskii and L. A. Smirnov	63

Controlling the fatigue life of steel by means of powerful current pulses. V. E. Gromov, O. V. Sosnin, V. V. Tsellermaer, Yu. F. Ivanov, and E. V. Kozlov	74
---	----

Automated Systems and Information Science

Self-organizing jet-emulsion reactor. V. P. Tsymbal, S. P. Mochalov, K. M. Shakirov, V. I. Kozhemyachenko, I. A. Rybenko, and S. Yu. Krasnoperov	79
--	----
