STEEL IN TRANSLATION

PAGE

Iron Production

Effectiveness of blast-furnace charging systems. V. I. Bol'shakov, I. G. Tovarovskii, and F. M. Shutylev	1
Mechanism of liquid-phase reduction of iron by solid carbon. A. V. Balasanov, Yu. S. Kolesnikov, V. E. Lekherzak, and A. B. Usachev.....	5
Gas pressure losses in bed with different batch charging systems. V. P. Tarasov and O. T. Khairtudinova	9

Metallurgy of Steel and Ferroalloys

Optimization of smelting technology of low-silicon and low-sulfur steel. A. I. Dagman, Yu. F. Sukhanov, and V. N. Khrebin	13
New continuous-casting machine for thermohardened reinforcing steel. N. I. Vorob'ev, D. A. Livshits, A. L. Podkorytov, and O. K. Tokovoi.....	16
Alloying R6M5 steel with metallized molybdenum concentrate. S. M. Grigor'ev.....	19
Modernizing the continuous bloom-casting machines in the electrosteel-smelting shop at NKMK Joint Stock Company. V. V. Pavlov, N. M. Sapaev, S. Yu. Boiko, V. I. Karatsuba, A. V. Kuklev, Yu. M. Aizin, V. V. Tinyakov, and S. V. Zarubin	22
Influence of inoculators on the nonmetallic-inclusion content in a large forged ingot. S. I. Zhul'ev, G. P. Shevkun, V. F. Petrova, S. S. Goremykina, and L. V. Palatkina.....	29
Reduction of Fe-10% Ni-20% Cr alloy by aluminum and silicon. K. B. Linchevskii, V. Ya. Dashevskii, V. I. Kashin, and E. A. Pinaeva.....	32
Behavior of hydrogen in the ladle treatment of alloy steel for large forgings. N. I. Vorob'ev, O. K. Tokovoi, A. I. Zorin, D. V. Shaburov, and V. B. Zakharov	35

Pressure Treatment of Metals

Influence of residual stress on the accuracy of pipe components. G. L. Kolmogorov and E. V. Kuznetsova	38
Crack formation under the action of thermal stress on billet heating. Yu. A. Samoilovich and V. I. Timoshpol'skii.....	42
Strengthening pipe steel. D. A. Pumpyanskii, I. Yu. Pyshmintsev, and V. M. Farber	47

Structure and Properties of Metals and Alloys

Hot rolling of IF steel at reduced temperature. K. A. Razomazov, A. A. Zaveryukha, V. M. Ievlev, and T. S. Tabolina.....	57
A new generation of microalloyed steel for bridge construction. I. F. Pemov, Yu. D. Morozov, A. M. Stepashin, O. V. Sorokolet, S. A. Aksyutin, A. S. Platonov, and V. G. Grebenchuk.....	62

Fluidized-bed cementation of steel parts in the production of automobile electric systems. A. A. Aliev	68
Saturation of tool-steel surface with boron, copper, and chromium in a fluidized bed. Yu. A. Balandin	75
Influence of alloying elements and impurities on the hardness and chill of low-alloy roll cast iron. V. I. Bol'shakov and S. V. Bobyr	79

Ecology and Resource Conservation

Cinder and slurry stores at ferrous-metallurgical enterprises: technological and ecological aspects of their operation. A. I. Fomenko	81
--	----
