STEEL IN TRANSLATION

PAGE

Iron Production

Increasing the strength of sinter and pellets by means of red bauxite sludge. V. A. Utkov and L. I. Leont'ev.....	1
Influence of pulsating inert-gas injection in hot metal on the structure and properties of cast iron. I. F. Selyanin, A. N. Drobyshev, V. B. Deev, A. I. Kutsenko, and E. S. Makarov	5
Direct reduction in blast furnaces. V. N. Andronov	9

Metallurgy of Steel and Ferroalloys

Influence of continuous-casting parameters on ingot pore formation. N. A. Yurovskii and L. V. Bulanov.....	17
Erosion-resistant nozzle of oxygen-converter lances. A. V. Sushchenko, F. I. Lukhtura, A. B. Kovura, A. B. Gnedash, and V. I. Ganoshenko	22
Restoring the working surface of broad mold walls without disassembly, using coating application by the gas-flame method. A. G. Radyuk, A. E. Titlyanov, and D. A. Goncharenko.....	29
Influence of the batch's fractional composition and the reducing agent on the manganese extraction from ore. S. V. Shatalov, N. E. Khisamutdinov, G. S. Kozlov, and A. V. Yavoiskii.....	33
Computerized quality estimates of continuous-cast billet. O. S. Logunova, D. Kh. Devyatov, and Kh. Kh. Nurov	36

Pressure Treatment of Metals

Development of processes using the reserve of frictional forces in rolling. S. M. Zhuchkov, A. A. Gorbanev, P. V. Tokmakov, A. P. Kiselev, and B. N. Kolosov	43
Neural networks in the quality control of thin sheet. E. Yu. Eletina, S. V. Borisova, and Yu. I. Larin	49
Saturation of die steel with boron and nickel in a fluidized bed. Yu. A. Balandin.....	53

Structure and Properties of Metals and Alloys

Influence of phosphorus on the structure of unalloyed isotropic electrical steel. A. E. Cheglov, D. A. Kondratkov, A. B. Polushkin, and A. A. Zaveryukha	56
Composition and production conditions for cold-resistant and H ₂ S-resistant rolled strip for oil and gas pipe. A. V. Golovanov, V. N. Zikeev, V. P. Kharchevnikov, N. V. Filatov, and A. V. Krasnov	60
Influence of pulsed treatment on the properties of alloys and their resistance to fatigue-corrosional failure. V. L. Volodin, V. R. Rokkel, T. V. Volodin, A. N. Abalakin, and V. V. Gaiduk.....	63

Structure–phase gradients in 60GS2 steel under fatigue and electrostimulation. Yu. F. Ivanov, M. P. Ivakhin, S. V. Kononov, V. E. Gromov, and E. V. Kozlov	69
Role of fullerenes in spherical-graphite formation in cast iron. S. A. Dubrovskii, A. N. Rogotovskii, and Yu. N. Petrikin	74

Ecology and Resource Conservation

Taking account of economic and ecological risks in introducing ecological management at metallurgical enterprises. M. I. Strukova and Yu. G. Yaroshenko.....	78
