## JOURNAL OF FRICTION AND WEAR

	PAGES	
	RUSSIAN	ENGLISH
Constant motion of rigid punch over the boundary of viscoelastic half-plane. V.M. Aleksandrov and A.V. Mark .....	5	1
Computer analysis of stress-strain state in elliptical contact at rolling simulation of gearing. M.A. Zhuravkov, A.M. Zakharik, S.M. Bosyakov, and S.S. Scherbakov .....	12	9
Rolling friction of elastic cylinder over the perfectly rigid half-space. Static friction. E.A. Bulanov .....	17	13
Analysis of efficiency of sliding bearings with misalignment of shaft and bushing axes. R.V. Sorokatyi .....	24	21
Tensile stresses in solid coating in the two-dimensional problem for contact with friction. R. Kulchitskii-Zhigailo and G. Rogovskii .....	33	30
Numerical analysis of transient processes in EHD-contact between cylinders with varying direction of rolling velocity. P.P. Usov.....	43	39
Effect of friction forces on efficiency and life of fuel assemblies of water- moderated reactors. Yu.G. Dragunov, Yu.N. Drozdov, and V.V. Makarov .....	54	49
Formation of wear-resistant surface structures and mechanism of their damage at friction with lubricant modified by ultradispersed diamond-graphite additives. Part 1. Tribological behavior. P.A. Vityaz, V.I. Zhornik, V.A. Kukareko, and A.I. Kamko .....	61	55
Features of failure at friction and adhesion of combined multilayer coatings based on Ti and ZrHf on steel P6M5. T.A. Kuznetsova .....	69	62
Study of wear resistance of composite coatings produced by electrochemical method. N.A. Dubinskii .....	78	70
Formation of structure in self-lubricating coating based on mixture of sodium silicate and polytetrafluorethylene. M.I. Sentyurikhina, A.P. Krasnov, O.V. Afonicheva, I.O. Volkov, V.M. Shkolnikov, and N.V. Plekhanova .....	83	75
Combined friction-electric modification of steel surfaces. Yu.K. Mashkov, V.R. Edigarov, M.Yu. Baibaratskaya, and Z.N. Ovchar .....	89	81
Application of high-speed crystallization to improve wear resistance of Al-Si alloy castings. A. Orlovich, M. Mruz, and A. Trytek .....	95	86
Mathematical modeling of the effect of operation conditions on friction and wear of carboplastics based on polyamide 6. A.I. Burya, A.D. Derkach, and V.I. Shemavnev .....	105	89
Abrasive wear of iron-carbon alloys. M.N. Brykov .....	110	96
