COKE AND CHEMISTRY

	PAGES	
	RUSSIAN	ENGLISH
<u>Coal</u>		
The quality of Russian coking coal. Part 2. Possible ways of upgrading. Yu. A. Zolotukhin, M. I. Stukov, and A. P. Demin	8	1
Reflectogram evaluation of the raw coal input to the West Siberian Metallurgical Corporation. G. R. Gainieva and R. L. Boyarchikova	18	11
<u>Coke</u>		
Forecasting coke hot strength (<i>CSR</i>) and reactivity (<i>CRI</i>). E. A. Bulanov, V. N. Zainutdinov, V. Ya. Kuznetsov, L. A. Zinov'eva, and Yu. B. Tsekot	23	17
Discussion of the paper "The Nippon Steel Corporation method of determining the strength of coke after gasification and the coke reactivity index". Yu. V. Stepanov, N. K. Popova, and D. A. Koshkarov	26	21
Hardness of lump coke under thermochemical conditions. V. M. Gulyaev	34	29
<u>Chemistry</u>		
Industrial technology for the catalytic decomposition of coking ammonia. O. I. Platonov, V. N. Egorov, N. N. Lutokhin, I. I. Mel'nikov, N. P. Chistyakov, M. A. Egorov, E. N. Krinitsyn, and R. I. Shchukina . . .	37	33
Ash composition changes in processing stages from mixed coal tar to pitch coke. L. N. Bol'shakova, I. N. Konkina, and T. I. Tushina	41	38
<u>Environmental Protection</u>		
A new approach to cleaning technological flue gases under industrial conditions. A. V. Borisenko and A. M. Gazaliev	43	41
