## MOLECULAR GENETICS, MICROBIOLOGY, AND VIROLOGY

PAGE

### Review Article

- Assembly and maturation of human immunodeficiency virus — targets for new anti-HIV compounds. A. G. Bukrinskaya, G. K. Vorkunova, and M. E. Burshtein . . . . . 1

### Experimental Articles

- Production of a recombinant fragment of the protein VacA of *Helicobacter pylori* and development of a noninvasive method for the diagnosis of helicobacteriosis. Yu. F. Belyi, L. A. Sheklakova, M. S. Vakhrameeva, V. G. Zhukhovitskii, V. G. Petrukhin, and Yu. A. Belaya . . . . . 8
- Regulation of 3-deoxy-D-arabinoheptulose-7-phosphate synthase activity and synthesis in *Agrobacterium tumefaciens* 2592. I. N. Feklistova, I. A. Grineva, and N. P. Maksimova . . . . . 13
- Molecular polymorphism of viral dsRNA of the yeast *Saccharomyces paradoxus*. G. I. Naumov, Yu. V. Ivannikova, and E. S. Naumova . . . . . 18
- Study of the effects of subinhibiting concentrations of antibiotics on the expression of the genes that regulate the production of pathogenicity factors in bacteria of the *Burkholderia cepacia* complex and *Pseudomonas aeruginosa*. M. Yu. Chernukha, N. A. Zigangirova, I. A. Shaginyan, and A. L. Gintsburg . . . . . 22
- The role of plasmids of various *Legionella* species in virulence. B. I. Marakusha, N. D. Temezhnikova, and I. S. Tartakovskii . . . . . 29
- Experimental use of VNTR typing of *Mycobacterium tuberculosis* for solving clinical problems: monitoring the quality of treatment and work of the laboratory service. O. V. Surikova, D. V. Voitikh, M. L. Filipenko, and Yu. N. Kurunov . . . . . 35
