## MOLECULAR GENETICS, MICROBIOLOGY, AND VIROLOGY

PAGE

### Experimental Articles

Detection of <i>Bartonella</i> DNA by a two-round PCR method in patients after tick bites in the Novosibirsk region. O. V. Morozova, I. V. Morozov, and N. Ya. Chernousova . . . . .	1
Properties of insertion mutants of <i>Burkholderia pseudomallei</i> defective for the production of cell membrane proteins. D. V. Viktorov, L. K. Merinova, V. V. Alekseev, N. N. Piven, O. A. Merinova, I. K. Seimova, V. B. Timoshin, and I. B. Zakharova . . . . .	7
Molecular genetic characteristics of <i>B. pertussis</i> strains isolated at various periods of a pertussis epidemic. I. K. Mazurova, O. Yu. Borisova, S. Yu. Kombarova, V. A. Aleshkin, and N. S. Zakharova . . . . .	13
The role of the <i>Yersinia</i> plasmid of calcium dependence in the formation of immunity to plague. A. A. Byvalov, I. V. Darmov, I. V. Marakulin, A. G. Obrosova, and I. P. Pogorel'skii . . . . .	19
Genetic variability of hepatitis B isolates in the population of Shuryshkarskii area of the Yamal-Nenets autonomous region. V. A. Manuilov, I. G. Netesova, L. P. Osipova, A. V. Shustov, R. B. Bayandin, G. V. Kochneva, and S. V. Netesov . . . . .	27
Regulation of 3-deoxy-D-arabinoheptulosonate-7-phosphate synthase of <i>Pseudomonas aurantiaca</i> B-162 bacteria. I. N. Feklistova and N. P. Maksimova . . . . .	34
Investigation of markers of herpesvirus infections in ischemic heart disease. M. A. Susloparov, I. M. Susloparov, N. M. Makhova, V. V. Omigov, E. E. Litasova, M. V. Legan, L. E. Slaikovskaya, S. P. Mironenko, A. M. Chernyavskii, and N. L. Luk'yanchikova . . . . .	39
