MECHANICS OF SOLIDS

	Russian page	English page
Guaranteed estimate of the influence of flexible elements on the dynamics of the attitude stabilization of a structure under bang-bang control. B. N. Sokolov	3	1
Perturbation torques in a floated gyro with an elastic housing on a vibrating base. D. V. Kondratov and L. I. Mogilevich	11	8
The influence of the dissipation on the stability of the rotation of a rigid body suspended on a rod. V. N. Koshlyakov and V. A. Storozhenko	22	16
Determination of parametric sensitivity of dynamical systems. A. V. Korostelev and O. N. Tushev	34	26
Nonlocal contact of rough bodies with an elliptic contact area. A. S. Kravchuk	42	32
An asymptotic method in the plane elastic body deformation theory. N. G. Ryabekov and R. F. Faizullina	53	41
Thermoelastic and poroelastic deformation of a multi-layer structure formed by layers resistant to bending (continuum approximation). R. L. Salganik	60	46
The application of the eigenfunction technique to the solution of dynamic problems for curved thermoelastic bodies. A. D. Chernyshov	66	51
Unsteady problems of diffraction of elastic waves on defects in spherically layered media. N. D. Vaisfel'd	74	57
Regions of local inelasticity and dissipative phenomena in some boron systems. A. A. Gorshkov, V. A. Lomovskoi, and E. N. Polyvanaya	87	67
Constitutive relations for viscoelastoplastic materials at small strains. S. A. Korneev	106	83
Stability of elastic and viscoelastic systems under the stochastic parametric excitation. V. D. Potapov	123	98
Fracture of rigid-plastic bodies and fracture constants. A. I. Khromov	137	109
The problem of a thin interfacial inclusion detached from the medium along one side. I. I. Il'ina and V. V. Sil'vestrov	153	123
Refined geometrically nonlinear theory and buckling modes of sandwich shells with transversely-soft core. V. A. Ivanov, V. N. Paimushin, and V. I. Shalashilin	167	134
Modeling of high-rise buildings as distributed systems subject to damage. O. V. Trifonov ...	178	143
Ivan Philippovich Obraztsov 07.28.1920 – 02.28.2005.	189	152
