## MECHANICS OF SOLIDS

	Russian page	English page
Guaranteed estimate of the influence of flexible elements on the dynamics of the attitude stabilization of a structure under bang-bang control. <b>B. N. Sokolov</b> .....	3	1
Perturbation torques in a floated gyro with an elastic housing on a vibrating base. <b>D. V. Kondratov and L. I. Mogilevich</b> .....	11	8
The influence of the dissipation on the stability of the rotation of a rigid body suspended on a rod. <b>V. N. Koshlyakov and V. A. Storozhenko</b> .....	22	16
Determination of parametric sensitivity of dynamical systems. <b>A. V. Korostelev and O. N. Tushev</b> .....	34	26
Nonlocal contact of rough bodies with an elliptic contact area. <b>A. S. Kravchuk</b> .....	42	32
An asymptotic method in the plane elastic body deformation theory. <b>N. G. Ryabekov and R. F. Faizullina</b> .....	53	41
Thermoelastic and poroelastic deformation of a multi-layer structure formed by layers resistant to bending (continuum approximation). <b>R. L. Salganik</b> .....	60	46
The application of the eigenfunction technique to the solution of dynamic problems for curved thermoelastic bodies. <b>A. D. Chernyshov</b> .....	66	51
Unsteady problems of diffraction of elastic waves on defects in spherically layered media. <b>N. D. Vaisfel'd</b> .....	74	57
Regions of local inelasticity and dissipative phenomena in some boron systems. <b>A. A. Gorshkov, V. A. Lomovskoi, and E. N. Polyvanaya</b> .....	87	67
Constitutive relations for viscoelastoplastic materials at small strains. <b>S. A. Korneev</b> .....	106	83
Stability of elastic and viscoelastic systems under the stochastic parametric excitation. <b>V. D. Potapov</b> .....	123	98
Fracture of rigid-plastic bodies and fracture constants. <b>A. I. Khromov</b> .....	137	109
The problem of a thin interfacial inclusion detached from the medium along one side. <b>I. I. Il'ina and V. V. Sil'vestrov</b> .....	153	123
Refined geometrically nonlinear theory and buckling modes of sandwich shells with transversely-soft core. <b>V. A. Ivanov, V. N. Paimushin, and V. I. Shalashilin</b> .....	167	134
Modeling of high-rise buildings as distributed systems subject to damage. <b>O. V. Trifonov</b> ...	178	143
Ivan Philippovich Obraztsov 07.28.1920 – 02.28.2005. ....	189	152
