NUMBER 2

2006

MOSCOW UNIVERSITY GEOLOGY BULLETIN

	Pages	
	Russian	English
Structural geomorphology of Eastern Egypt. N.V. Koronovskii, N.P. Kostenko, and G.V. Bryantseva	3	1
On paleobathymetry of the Albian basin in the Russian Plate. E.Yu. Baraboshkin and A.S. Nikul'shin	9	8
Cyclicity in Lower Campanian and Maastrichtian sediments of the mountainous Crimea by an example of sections at the Ternovka settlement and in Mount Ak Kaya: structure, typification, and accumulation conditions. N.V. Tolstova and R.R. Gabdullin	17	19
Rock gases and possibilities of using them for kimberlite pipe prospecting. L.S. Kondratov, V.I. Starostin, D.M. Voinkov, and M.A. Degtyarev	24	29
Middle and Late Carboniferous landscapes in the contemporary West Europe territory. S.G. Balanchivadze and N.V. Pronina	31	38
Geochemical characteristics of Jurassic deposits in the western part of the Caucasus-Scythian region. E.Yu. Suslova	42	50
Possible participation of halogen water in oil formation. L.G. Bogashova	46	57
Similarities and differences of subsidence ability formation in loess rocks of various genetic types. V.T. Trofimov	53	65
<u>Brief Communications</u>		
Ridge belts as tectonic structures on Venus surface. E.V. Pivchenkova	60	75
Raman spectroscopy of inclusions in chrysoberyl from Almaznye mines of the Ural mountains. N.A. Gromalova, G.I. Dorokhova, and M.F. Vigasina	64	80
Growth and morphology of huntite-structure crystals (Nd,Y)(Ga,Al) ₃ (BO ₃) ₄ . O.V. Pilipenko, V.V. Mal'tsev, and N.I. Leonyuk	68	86
