NUMBER 2

2006

RUSSIAN ELECTRICAL ENGINEERING

	PAGES	
	RUSSIAN	ENGLISH
New safety relays for the power industry. N. M. Mikhailov, V. E. Mandravin, M. A. Shamis, and A. N. Leont'ev	4	1
New switches and starters based on the PM12 series. I. Z. Akhazov, T. A. Denisova, O. A. Petrov, and E. V. Tkachishin	10	8
New multifunctional switchgear. E. V. Sagaradze, V. I. Plotnikov, S. A. Moiseev, and K. Yu. Kutarev	14	12
Variation of the characteristics of low-voltage vacuum switches over time. G. S. Belkin, V. S. Genin, A. N. Leont'ev, and E. Yu. Erokhin	20	18
Influence of control and safety equipment on the theoretical reliability of a marine power-distribution system. V. N. Bochkarev	23	22
Safety and control equipment for power systems. V. S. Genin	26	26
Influence of constant components in the stator current on the transient processes in ac drives. N. V. Donskoi and K. A. Chubukov	30	31
Startup of synchronous motors in challenging conditions. V. F. Shepelin, N. V. Donskoi, and B. S. Fedorov	34	36
Simulation of a switched-reluctance alternator with hybrid excitation. V. A. Nesterin and V. A. Vatin	41	44
VNIIR terminal blocks. Yu. K. Leonov and D. L. Smirnov	45	49
Optimizing ultrasonic magnetostrictive transducers in scale-prevention equipment. L. A. Slavutskii, A. A. Nikolaev, and V. S. Genin	48	52
Economic impact of UPS scale-prevention equipment. V. N. Bochkarev and A. F. Rabotaev	52	58
Safety regulations for low-voltage electrical equipment. E. V. Sagaradze and G. A. Bugaev	55	61
Testing low-voltage switchgear. E. G. Egorov, E. G. Tokmakov, and A. N. Leont'ev	58	63
