## RUSSIAN ENGINEERING RESEARCH

PAGES  
RUSSIAN/ENGLISH

**Vestnik Mashinostroeniya, Vol. 85, No. 10, 2005**

### Design, Calculation, Tests, and Reliability of Machines

Experimental studies of the properties of the gasostatic bearing as an object of regulation. V. P. Legaev .....	19	1
Friction torques of ball bearings of various sizes. V. E. Pini .....	21	5
Evaluating the cyclic strength of structural steels with long service lives. I. M. Petrova and I. V. Gadolina .....	23	9

### Cycle of Articles

#### “Problems of Tribology - Friction, Wear, and Lubrication”

(General Editor Yu. N. Drozdov, *Doct. tech. sci.*,

*Member Russian Academy of Cosmonautics  
and Russian Engineering Academy*)

Physical concepts of the friction and wear processes with boundary lubrication. I. A. Medelyaev .....	27	16
---	----	----

### Manufacturing Engineering

Predicting machine-tool thermal characteristics in continuous operating conditions. A. N. Polyakov and A. G. Kravtsov .....	43	33
Basic principles of the kinematics of semifree shaping of complex-profile parts. F. S. Yunusov and R. F. Yunusov .....	52	43

### Chipless Machining of Materials

Calculating the direction of fibers in the wall of hollow extruded articles. A. L. Vorontsov .....	63	49
--	----	----

**STIN, No. 10, 2005**

### On the 75th Anniversary of MGTU “Stankin”

(Thematic selection)

Grinding the special back surfaces of geometrically accurate hobs. B. E. Sedov and V. B. Romanov .....	13	55
--	----	----

On the 75th Anniversary of TulGU  
(Thematic collection)

Parametric optimization of the generating tool. O. I. Boriskin, N. G. Stakhanov, and A. V. Yakushenkov .....	20	60
Analytic technique for determining the geometric parameters of the oblique- angle cutting process. M. V. Ushakov, S. V. Potylitsyn, and I. A. Vorob'ev .....	25	66
Analysis of the kinematics of gear cutting by the generating method. Yu. N. Fedorov and O. L. Zolotukhina .....	28	71
Selecting the cutting insert for finish turning. V. V. Ivanov, E. V. Sorokin, and E. V. Pavlova .....	33	74
