Design, Calculation, Tests, and Reliability of Machines

Analysis of the dynamic loading of crawler tractor transmission with interaction of the variable-mass working organs. A. I. Svitachev and Z. A. Godzhaev	21	1
Absolutely inelastic transverse impact of a weight on a stationary beam. N. L. Velikanov and S. I. Koryagin.....	25	6
Electromechanical deformation and calculation of the characteristics of the nano- and micro-displacement stepping piezomotors. S. M. Afonin	28	10
Microscopic changes in contact systems. V. Ts. Vanchikov	32	16
Influence of the microstructure on local values of stresses and strains in fibrous composite. V. I. Kolesnikov, V. V. Bardushkin, V. B. Yakovlev, and A. P. Sychev.....	35	19
The wear-resistant diffusion coatings based on boron, copper, and nitrogen that are obtained in the fluidized bed. Yu. A. Balandin	38	25

Cycle of Articles

“Problems of Tribology - Friction, Wear, and Lubrication”
(General Editor Yu. N. Drozdov, Doct. tech. sci.,
Member Russian Academy of Cosmonautics
and Russian Engineering Academy)

Methodology of tribological studies of materials operating in the external temperature conditions. A. P. Semenov	40	29
Numerical determination of the pressure field in the conical liquid-friction bearings. O. V. Solomin and A. Yu. Korneev	46	37

STIN, No. 8, 2005

On the 7th Anniversary of MGTU “Stankin”

Synergetics of small displacements in superprecision machine tools. A. V. Kudinov.....	6	47 (continued)
Some tendencies in improving the technological production medium. A. S. Vereshchaka	12	54
Calculating the parameters of the machining of bevel gears with circular teeth with technological constraints. G. I. Sheveleva, A. E. Volkov, and V. I. Medvedev	19	62

Metal-Cutting Machine Tools

Theoretical determination of the center-of-stiffness and the position of the principal axes of the machine-tool elastic system. V. V. Agafonov	29	68
