Production, Structure, Properties

- The effect of a thermocyclic treatment of tungsten carbide hard alloys on their structures and properties. Part 2. L. I. Aleksandrova, B. P. Bondarenko, T. V. Nayuk, and N. A. Yurchuk. 3 1
- The up-to-date commercial production process for detonation nanodiamonds and their main applications. Part 2. V. Yu. Dolmatov. 10 8
- Structure, surface properties of Sn—Ge melts and their role in the germanium crystallization from the melt. V. M. Perevertailo, O. B. Loginova, A. S. Roik, and V. P. Kazimirov. 22 21
- Analysis of the RMC model of the Ni—C system melt. S. O. Lysovenko. 30 29
- Hardness and electrical resistance of composites of the cBN—Al—TiC(TiN) system produced by reaction sintering at high pressure. N. P. Bezhenar, S. A. Bozhko, L. A. Romanko, and N. N. Belyavina. . 34 34
- Si—SiO₂ and Si—SiO₂—SiC stampers. I. A. Kossko, A. A. Kryuchin, F. I. Korzhinskiy, L. D. Sereda, and I. V. Sereda. 44 43

Investigation of Machining Processes

- Calculation of ground surface roughness parameters allowing for radial vibrations of wheel working surface. N. V. Azarova and P. G. Matyukha. 52 50
- An approach to selecting the composition of process liquids as a non-conventional means of implicit polarization in diamond grinding. V. I. Lavrinenko, I. V. Leshchuk, and V. O. Skryabin. 62 59

Tools, Powders, Pastes

- Adsorption properties of cubic boron nitride submicron powders. G. P. Bogatyreva, M. A. Marinich, G. A. Bazaliy, V. L. Gvyazdovskaya, E. V. Ishchenko, V. M. Maevsky, and T. M. Nesterenko. 72 68

Letters to the Editor

- On synthesis of graphite-like B₂O. V. L. Solozhenko, O. O. Kurakevich, and C. Lathe. 80 76
