## JOURNAL OF SUPERHARD MATERIALS

PAGES  
RUSSIAN/ENGLISH

### Production, Structure, Properties

- The Al—Ni—C and Si—Ni—C systems at high pressures: procedures of constructing phase diagrams and diamond synthesis. V. Z. Turkevich, A. G. Garan, and N. N. Belyavina. . . . . 3 1
- Structural transformations in the formation of a superhard composite in the B—C—Si system. A. A. Shulzhenko, D. A. Stratiychuk, G. S. Oleinik, and V. M. Vereshchaka. . . . . 13 11
- Formation of the contact interaction zone of nickel alloys with the carbon surface. V. M. Perevertailo, O. B. Loginova, and O. G. Kulik. . . . . 31 27
- The up-to-date commercial production process for detonation nanodiamonds and their main applications. Part 3. V. Yu. Dolmatov. . . . . 44 39
- Kinetics of densification and phase transformations in rolling-deformed wurtzite boron nitride powders during high-pressure sintering. V. M. Volkogon, S. K. Avramchuk, A. S. Osipov, A. V. Kravchuk, and T. P. Balan. . . . . 55 50

### Tools, Powders, Pastes

- Impurities and inclusions in AS4 and AS6 synthetic diamond powders. G. P. Bogatyreva, V. M. Maevskiy, G. D. Ilnitskaya, G. F. Nevstruev, V. N. Tkach, I. N. Zaitseva. . . . . 62 56
- Optimization of carbide cutter arrangement in a drill bit body. I. A. Sveshnikov and V. N. Kolodnitskiy. . . . . 70 64

### Letters to the Editor

- The cBN → hBN phase transformation in a nanopowder induced by high quasi-hydrostatic pressure without thermal activation. N. P. Bezhenar, A. A. Shulzhenko, L. K. Shvedov, S. A. Bozhko, and N. N. Belyavina. . . . . 76 69
- Preparation and some properties of rhenium diboride monocrystals. A. B. Lyashchenko, V. N. Paderno, V. B. Filippov, and D. F. Borshchevskiy. . . . . 79 72
