

INTERNATIONAL JOURNAL OF SELF-PROPAGATING HIGH-TEMPERATURE SYNTHESIS

Volume 15, Number 3, 2006

Numerical Simulation of Initiation of SHS Reactions in a Powder Mixture in a Gap between Heat-conducting Metal Sheets <i>O.B. Kovalev and K.A. Manaichev</i>	203
Advanced Diagnostic Techniques for Experimental Study of the Self-propagating High-temperature Synthesis (SHS) <i>A.G. Merzhanov and A.S. Rogachev</i>	215
The Phenomenon of Multilimit Combustion in the Silicon-Melamine-Promoter System <i>H.L. Khachatryan and S.L. Kharatyan</i>	229
Mechanochemically and Thermally Activated Combustion of the B-TiN System <i>Ts.S. Bilyan, Kh.V. Manukyan, S.L. Kharatyan, and J.A. Puszynski</i>	235
Effect of Nickel Addition on the Ti-C Reaction Process and Microstructural Evolution by SHS <i>W. Bounour, A. Benaldjia, A. Ouari, M. Guerioune, and D. Vrel</i>	247
SHS of Doped LaGaO ₃ Perovskite Oxide <i>H. Ishikawa, M. Enoki, T. Ishihara and T. Akiyama</i>	259
