SURFACE ENGINEERING AND APPLIED ELECTROCHEMISTRY

	PAGES	
	RUSSIAN/ENGLISH	
<u>Precision Electrical Machining of Materials</u>		
Dimensional electric-arc machining of metals. V. I. Nosulenko	8	1
Throwing power of the standard chrome-plating electrolyte in plating with constant and pulsed currents. N. I. Tsyntaru, I. V. Yakovets, O. Yu. Keloglu, V. G. Zvonkii, S. P. Yushchenko, and A. I. Dikumar.....	17	11
<u>Electrical Surface Treatment Methods</u>		
Properties and peculiarities of electrospark coating formation on steel 45 with the refractory d-metals. A. D. Verkhoturov, V. N. Brui, V. P. Luneva, A. V. Kozyr, T. V. Glabets, and S. A. Demin	23	17
Electrospark technologies for restoring worn dough-divider parts. F. Kh. Burumkulov, S. V. Vashkeba, and V. I. Ivanov.....	32	27
<u>Electrical Processes in Engineering and Chemistry</u>		
Forming plasma structures in electrolyte solutions. A. I. Maksimov, A. Yu. Nikiforov, I. N. Sergeeva, and Yu. V. Titova	37	33
On some characteristics of the nonlinear resonance interaction of the modes of charged jet. A. I. Grigor'ev, S. O. Shiryayeva, and E. V. Egorova.....	42	39
Spatial distribution of electric field in thermoionized jets. M. S. Apfel'baum.....	50	48
Influence of a metallic filler on the change of the external electric field in polymer composites. V. V. Krivtsov	54	53
Control of the hydrodynamic processes in monopulse electroexplosive energy conversion. V. V. Shamko, A. I. Vovchenko, L. A. Kamenskaya, and G. A. Barbashova.....	61	62
<u>Equipment and Instrumentation</u>		
Medical stroboscopic illuminator based on super-bright LEDs. V. P. Usenko, I. P. Kundev, V. P. Kalinovskii, and P. V. Levchenko	76	70
<u>Operating Experience</u>		
Inhibitor for anticorrosion protection of internal steam boiler surfaces during layup. V. V. Parshutin, V. G. Revenko, and N. S. Sholtoyan	78	72
Influence of ultrasonic cavitation on the properties of starch size. P. G. Dumitrash, P. A. Savnei, M. K. Bologna, and A. V. Gimza	85	79
Heating of construction materials with electromagnetic radiation. Yu. P. Yulnets and A. V. Markov	92	88
Influence of degassing on liquid convection in a low-frequency electric field. M. A. Fatykhov and R. I. Idrisov	96	93

Influence of electric discharge regime on the quality of the metal that is subjected to electrohydroimpulsive processing in the liquid state. V. N. Tsurkin, A. V. Sinchuk, and A. V. Ivanov.....	98	96
Developing the impregnation activation means in creating the thermoprotective coatings. T. A. Man'ko	104	103
