## SURFACE ENGINEERING AND APPLIED ELECTROCHEMISTRY

	PAGES	
	RUSSIAN/ENGLISH	
<u>Precision Electrical Machining of Materials</u>		
On the physical nature, the commonality and differences, the technological capabilities of the electric discharges, and the classification of the electro-discharge metal-working techniques. V. I. Nosulenko .....	4	1
Development of the electrodischarge method for the permanent marking of machine parts (Part I. Concept. Pulse-Discharge Technology). P. P. Malyushevskii, V. G. Sysoev, A. I. Ivliev, A. P. Malyushevskaya, M. Yu. Komarov, V. E. Ryabtsev, A. P. Malyushevskii, and T. V. Hoeydal ....	14	11
<u>Electrical Surface Treatment Methods</u>		
On expanding the electrosark alloying frequency range. A. M. Paramonov, E. A. Pasinkovskii, and A. V. Koval .....	22	18
<u>Electrical Processes in Engineering and Chemistry</u>		
Influence of the electric discharges on the properties and structure of solid dielectrics. Yu. N. Vershinin, A. M. Gashimov, and E. D. Gurbanov .....	28	24
Influence of insulating coating on the charge exchange between the electrode and the fluid. M. K. Bologa and I. V. Kozhevnikov .....	32	29
One-dimensional problems of calculating the pre-breakdown ampere-time characteristics of weakly-ionized media. M. S. Apfel'baum .....	37	35
Relaxation oscillations in a direct-current glow discharge, caused by plasma-initiated chemical reactions. Yu. V. Zakomoldin and A. I. Maksimov .....	44	43
Study of influence of beta <sup>-</sup> radiation on charge carrier formation and transfer in PVC. B. B. Kolupaev .....	50	50
Selecting the form of the power specification for the numerical solution of the inverse hydrodynamics problem of recovering the kinematic and dynamic characteristics of the discharge channel. G. A. Barbashova, A. I. Vovchenko, and V. V. Shamko .....	54	54
<u>Equipment and Instrumentation</u>		
Influence of the geometric characteristics of an electrodischarge elastic oscillation generator on the working element displacement in the post-discharge stage. V. N. Tsurkin and A. V. Mel'nik .....	63	58
<u>Operating Experience</u>		
Electrodischarge fracturing of seabed soils. A. R. Rizun, Yu. V. Golen, and S. A. Yatsyuk .....	70	66
Evaluation method for the parameters of a magnetic hysteresis model. C. Cepisca and N. Jula .....	73	70
Relative sensitivity of the elements in spark-source mass spectrometry of solid bodies. K. Z. Nuriev .....	80	78
