SURFACE ENGINEERING AND APPLIED ELECTROCHEMISTRY

PAGES
RUSSIAN/ENGLISH

Precision Electrical Machining of Materials

Localization of anodic etching by thick polymer masks, and the composition of surface layers in electrochemical marking of aluminum alloy parts. G. F. Volodina, V. G. Zvonkii, A. A. Zuev, I. I. Maguryan, O. O. Redkozubova, E. A. Yakhova, and A. I. Dikusar.....	4	1
Electrodischarge processing of the surface of the rolls of the steel-strip cold-rolling mill in the pulsed regime. Yu. I. Usenko, V. I. Ivanov, V. P. Gritsai, and T. N. Nesterenko	11	9
Influence of spark discharge energy and duration on the composition of the powder that is obtained by electroerosive dispersion of the WC8 hard alloy in water. M. I. Dvornik, A. D. Verkhoturov, T. B. Ershova, and V. I. Palazhchenko	14	13

Electrical Processes in Engineering and Chemistry

Thermodynamic calculation of the physical parameters of the electrolyte heating process. A. I. Grigor'ev, S. O. Shiryaeva, and V. V. Morozov	20	20
The electric arc in a transverse dielectric stream as a heat source for new technologies. V. I. Nosulenko	26	27
Study of the metal/grease electrical contact by the pulsed volt/ampere characteristics method. Yu. M. Rychkov, A. V. Esipok, and Yu. G. Polyagoshko.....	34	36
The cumulation phenomenon in the interaction of vortex rings (Part 1. Experimental observations). P. P. Malyushevskii.....	37	40
Study of working medium influence on the amplitude of pressure pulses in high-voltage pulsed discharges. O. N. Sizonenko, E. I. Taftai, and O. V. Khvoshan.....	45	49
One-dimensional stationary problems of calculating pre-breakdown volt/ampere characteristics of weakly ionized media. M. S. Apfel'baum	50	55
Influence of deformation rate on mass transfer in electrohydropulse treatment of weld joints. L. Yu. Demidenko and N. A. Onatskaya	54	60
Extended corona discharge in strong aqueous electrolytes. S. V. Petrichenko	58	64
Sedimentation characteristics of the electrodischarge hydroxides of aluminum and iron. A. N. Yushchishina, A. A. Zubenko, L. A. Petrichenko, A. P. Malyushevskaya, A. A. Smal'ko, and S. A. Khainatskii	64	71

Equipment and Instrumentation

Setup for experimental studies of the dynamics of gas hydrate decomposition in a pipeline with SHF electromagnetic action. M. A. Fatykhov and N. Ya. Bagautdinov	77	76
--	----	----

Operating Experience

Breakup of strong deposits in cleaning tubes with electrical discharges. Part I. Zh. N. Ishchenko, V. P. Zavoda, V. Ya. Todyshev, and Yu. N. Degtev.....	81	80
On the concentration of electroactive atoms of transition group elements in silicon. M. K. Bakhadir Khanov, N. F. Zikrillayev, N. Narkulov, U. Kh. Sadykov, Turdi Umar, and K. S. Ayupov.....	90	90
Magnetization of a fine cast amorphous microwire in a zero magnetic field. S. A. Baranov, M. Vasquez, and V. P. Usenko	93	94
Electrodischarge cleaning of precision castings. T. D. Denisyuk and A. R. Rizun.....	96	98
