SURFACE ENGINEERING AND APPLIED ELECTROCHEMISTRY

PAGES
RUSSIAN/ENGLISH

Precision Electrical Machining of Materials

Statistical model for analyzing nucleation in the electrochemical processes. S. A. Baranov.....	4	1
The photoelectrochemical etching as a tool for GaN gas sensor fabrication. V. Yu. Popa.....	7	5

Electrical Surface Treatment Methods

Use of the chrome-nickel alloys for creating electrospark coatings. V. P. Luneva, A. V. Kozyr, A. D. Verkhoturov, V. N. Brui, and T. V. Glabets	11	9
Wear-resistance and optimal composition of the galvanic composite materials. T. V. Bortsoi.....	19	18

Electrical Processes in Engineering and Chemistry

Nonlinear oscillations of charged drops. Part 2. Internal resonance interaction and radiation. Influence of external fields. Account for viscosity. A. I. Grigor'ev, S. O. Shiryayeva, A. N. Zharov, and V. A. Koromyslov	24	24
Nonlinear oscillations of a charged viscous fluid drop. A. N. Zharov, A. I. Grigor'ev, and S. O. Shiryayeva	35	36
Physical parameters of the plasma in the optimal polymer material metallization conditions. I. N. Brovikova	44	46
Triboelectrofiltration of petroleum-base fluids. Yu. A. Mikiporis	46	49
Technique for determining the zones and volumes of electrodischarge casting mold and core fettling. T. D. Demisyuk and A. R. Rizun	54	58
Influence of preliminary electroprocessing on the charge state and the strength properties of a composite material based on PE and piezoceramics. M. A. Ramazanov, A. M. Gasanov, Kh. S. Ibragimova, and S. A. Abasov	57	62
Experimental study of the nature of the erosion of aluminum and iron granules in high-voltage electrical discharges in a reactor with a metal charge. S. A. Khainatskii, A. S. Smal'ko, and A. A. Zubenko.....	62	67

Equipment and Instruments

The T-106.5 thermostat. A. M. Paramonov, E. A. Pasinkovskii, and A. V. Koval.....	66	72
--	----	----

Operating Experience

Breakup of the strong deposits in cleaning tubes with electrical discharges. Part 2. Zh. N. Ishchenko, V. P. Zavoda, V. Ya. Todyshev, and Yu. N. Degtev.....	71	78
--	----	----

Cooling of plates from optical glass after electronic micro-treatment. G. V. Kanashevich.....	79	86
On IRQ PC in Mn-doped silicon. K. S. Ayupov	84	91
New silicon-base solar cell materials with CdS and ZnS quantum dots. B. A. Abdurakhmanov, A. Sh. Mavlyanov, U. Kh. Sodikov, and N. Norkulov	89	97
