SURFACE ENGINEERING AND APPLIED ELECTROCHEMISTRY

PAGES
RUSSIAN/ENGLISH

Electrical Precision Treatment of Materials

- Macrodistribution of anodic etch rates in the electrochemical marking of aluminum alloy using self-adhesive polymer masks as a template. V. G. Zvonkii, O. O. Redkozubova, and A. I. Dikusar 4 1

Electrical Surface Treatment Methods

- Electrospark alloying of frictional-pair working surfaces to improve the reliability of NSh-U hydraulic pumps. F. Kh. Burumkulov, V. I. Ivanov, S. A. Velichko, P. A. Ionov, and S. P. Sul'din 13 11
- Contribution of structural change to the strengthening of stressed metal in electrohydraulic-pulse treatment. N. A. Onatskaya and L. Yu. Demidenko 19 17

Electrical Processes in Engineering and Chemistry

- Space charge in poorly conducting dielectrics. F. P. Grosu and M. K. Bologa 22 20
- Influence of moisture transport on the heat transfer under the action of a nonuniform electric field in capillary tubes. N. V. Polishchuk, M. S. Panchenko, and I. M. Panchenko 27 25
- Control of electrochemical processes by inductive--capacitive devices: a review. V. F. Gologan 39 36
- Influence of the electrolyte-solution (cathode) properties on the quenching current for a glow discharge. S. V. Troshenkova and A. I. Maksimov ... 44 41
- Removal of heavy-metal ions from water by means of high-voltage discharges in reactors with a granulated metal charge. I. Model solutions. S. A. Khainatskii, D. A. Zubenko, L. A. Petrichenko, A. A. Smal'ko, V. A. Kreshchenko, N. E. Ponomarenko, and T. V. Tyurina 47 45
- Removal of heavy-metal ions from water by means of high-voltage discharges in reactors with a granulated metal charge. II. Industrial galvanic wastewater. S. A. Khainatskii, D. A. Zubchenko, A. A. Smal'ko, V. A. Kreshchenko, and V. L. Kovalenko 53 50
- Radiation-stimulated diffusion in filled PVC. A. Ya. Bomba, A. M. Rogalya, B. B. Kolupaev, and E. V. Lebedev 59 55

Equipment and Installations

- Operating conditions of electric-discharge pulse generator in a pile-driving systems. A. P. Malyushevskaya and P. P. Malyushevskii 64 61
- Electroflotation unit for clarifying apple juice. T. D. Kubritskaya and V. N. Sorokina 69 66

Operating Experience

- Role of electron escape in pulsed dielectric breakdown. Yu. N. Vershinin, A. M. Gashimov, and E. D. Gurbanov 72 70

Influence of ultrasound waves on the adhesion of gold coatings to silicon. A. G. Gaibov and K. I. Vakhobov	75	74
Radiothermoluminescence of polymer—piezoceramic composites. M. M. Kuliev ..	79	77
Electric-discharge destruction of casting molds and cores in various discharge media. T. D. Denisyuk and A. R. Rizun	83	81
Electrodeposition of amorphous CO—W alloys: role of hydrodynamic conditions. Zh. I. Bobanova, V. I. Petrenko, S. P. Yushchenko, S. A. Silkin, and E. A. Yakhova	86	84
