## JOURNAL OF WATER CHEMISTRY AND TECHNOLOGY

PAGES  
RUSSIAN/ENGLISH

### Theoretical Principles of Water Purification and Treatment Technology

- Theoretical analysis of disinfection processes of water in ozonization. N. A. Mischuk, V. V. Goncharuk, N. G. Potapchenko, and O. S. Savluk. .... 417 1

### Physical Chemistry of Water Treatment Processes

- Interaction of hydrogen peroxide with a layer of activated carbon during filtration of a H<sub>2</sub>O<sub>2</sub> solution. N. A. Klimenko, I. P. Kozyatnik, and L. A. Savchina. .... 438 14
- Purification of aqueous solutions of direct red dye in a photocatalytic membrane reactor. S. A. Tsarenko, V. M. Kochkodan, A. O. Samsonov-Todorov, and V. V. Goncharuk. .... 446 19
- Photocatalytic discoloration of organic dyes on rutile in SAS aqueous solutions. E. I. Kapinus, T. A. Khalyavka, and T. I. Viktorova. .... 455 25

### Water Treatment and Demineralization Technology

- Treatment of drainage waters from dumps of solid domestic wastes by baromembrane methods. V. V. Goncharuk, M. N. Balakina, D. D. Kucheruk, and V. F. Skubchenko. .... 462 29
- Comparative assessment of chalcedony and quartz sand as filtrating materials. N. V. Yaroshevskaya, V. V. Goncharuk, T. V. Karmazina, E. V. Srebrodolskaya, O. G. Shvydenko, and V. Ya. Kaganov. .... 472 36
- Thorium (IV) floatation separation by means of fine-disperse solid solutions of dialkylphosphonic acid in paraffin. V. V. Menchuk, O. V. Perlova, A. A. Shirikalova, and E. M. Menchuk. . . . . 482 43

### Biological Methods of Water Treatment

- Disinfecting properties of polyhexamethyleneguanidine chloride and factors influencing its activity. V. V. Goncharuk, N. G. Potapchenko, V. N. Kosinova, and T. I. Levadnaya .. 491 49
- Investigation of transformation conditions of phenol and its monochlorosubstituted derivatives catalyzed by peroxidase. O. V. Oseichuk, I. I. Romanovskaya, and O. V. Sevastianov. 505 59
