## JOURNAL OF WATER CHEMISTRY AND TECHNOLOGY

PAGES  
RUSSIAN/ENGLISH

### Theoretical Principles of Water Purification and Treatment Technology

- The use of mathematical models of wastewater purification processes in designing distributed treatment systems. G. A. Statyukha, A. A. Kvitka, T. V. Boyko, and I. N. Dzhigirey. ... 517 1

### Physical Chemistry of Water Treatment Processes

- Impact of activated carbon inoculation with microorganisms on its spontaneous bioregeneration in sorption from an ozonized SAS solution. N. A. Klimenko, L. A. Savchina, L. V. Nevinnaya, Yu. V. Sidorenko, and N. Z. Titarenko..... 531 11
- Zinc sorption from aqueous solutions with fibrous carboxylic ion exchange resins FIBAN. V. A. Ogorodnikov, V. S. Soldatov, and A. A. Shunkevich. .... 543 19

### Analytical Chemistry of Water

- A new photometric method of determining residual concentrations of polyhexamethylene guanidine in drinking and natural waters. V. V. Goncharuk, A. V. Terletskaya, O. S. Ievleva, T. A. Bogoslovskaya, and N. F. Kushevskaya..... 558 30
- Polyelectrolyte titration of sodium maleate-alt-vinyl acetate copolymer with Hyamine 1622. Gabrielle Charlotte Chitanu, Ana Onu, Adina Graziella Angheliescu-Dogaru, and A. Carpov. .... 571 39

### Water Treatment and Demineralization Technology

- Efficiency of using mixed reagents based on aluminum and iron salts for water treatment. A.V. Mamchenko, N. G. Gerasimenko, I. I. Deshko, T. A. Pakhar, and T. I. Yakimov. .... 582 47

### Biological Methods of Water Treatment

- The mechanism of intensifying the antimicrobial action of activated chloride with copper. E. I. Murashko, M. K. Malyshev, O. S. Savluk, V. V. Goncharuk, and T. I. Levadnaya. .... 693 54
- Sorption of U (VI) ions of the natural association of microorganisms of activated sludge and pure culture *Bacillus polymyxa* IMB 8910. L. N. Spasenova, V. Yu. Tobilko, I. A. Leshchuk, P. I. Gvozdyak, and B. Yu. Kornilovich. .... 604 61
